*Shalom laYehudim, Shalom laBnai Noach, Shalom laGoyim.* It's the evening of the 2nd day, *kehes beMenachem Av*, *Parashas Vaeskhanan*, *tav-shin-ayin-dales*, the evening of the 1st day, Thursday, 3 August, 2014, webcasting from Israel adrift. Maybe.

So last night Bibi and Bogie addressed the nation to tell us that Israel was completing its destruction of 31 murder tunnels dug into Israel and consequently there will be a redeployment of its troops, withdrawing if not completely from the Strip. In 1985, after three years of trying to govern Beirut and southern Lebanon, Rabin and Peres called for retreat into a security zone that they designed, which lasted for 15 years.

Sounds as if Bibi and Bogie are also thinking along these lines. They did not say the fighting was over but only this phase.

And in any case, today was another normal day down south where the Iron Dome system does not work; where the rockets and mortars are so close as to allow Jews only 15 seconds to take shelter -- run for their lives -- when the Red Color warning is sounded.

In the south, life has come to a standstill, and those who have not fled north do not live normal lives, what with the Red Color alarm sounding today, I think, more than 30 times.

Voices in Likud and HaBayit HaYehudi/The Jewish Home parties are grumbling about the loss of initiative.

But I abstain on this; I need more information. When the fighting was like a day old, Egypt proposed a truce, Bibi accepted, and to his right there was bitter anger and the hot-headed Danny Danon who opened his mouth and got himself fired. It seemed not to occur to him and Bibi's critics at the time that the acceptance of the Egyptian proposal was a ploy to blame HAMAS as the rejectionists. It was a proposal both Egypt and Israel knew HAMAS could not accept. Likewise I reserve judgment on what they are doing now.

What I am more convinced of than ever is the need for a massive invasion of Gaza which could result in the death of thousands of soldiers, but that may be the price we have to pay to defeat this enemy who we have no choice but to defeat. The current situation simply cannot continue. Southern Israel has

become like a cancerous limb, decaying. HAMAS has made all the kibbutzim and other communities close to the Strip unlivable. We have no choice but total victory over HAMAS to exterminate their power over us and I fear the price could be in the thousands.

In 1973 with less than half the population we have today, we lost 2,600 men. In 1967, we lost 700-800 men. And I fear in our fatness, our prosperity, we are quaking in our boots over the loss so far of less than 70.

I fear we will have to pay a very steep price for the sin these last 13 years of abandoning Sderot and environs. That once pleasant, tidy little development town has become a sad place.

I think as well two missiles were shot down over Tel-Aviv today by the Iron Dome system, but again in the south, it is business as usual, that is to say, fear as usual.

The link posted for this webcast is worth a view at this point, I think, so let me suggest you all hit the pause button, open another browser and check out this two-minute video and see what we are up against, then get back to me.

Okay, this morale boosting HAMAS video I think exposes just who it is we are being attacked by. These are the rocket boys I have often talked about. You see them training in his video; how they run out quickly carrying their rockets and equipment and hide in an orchard, where quickly they set up the apparatus, fire off the missiles and then can hustle away in the knowledge Israel has the technical capability of pinpointing the launch point and retaliating fast.

What I found interesting in this presentation was the absence of the target of these rockets. They look heroic, these “warriors,” but we never see their target. This is not a dramatization of a clash with IDF soldiers. What you see is training to launch these rockets into Israel with the conscious intent of murdering one or more Jews at random in their neighborhoods and streets and playgrounds and synagogues; or failing that, at least smashing into a Jewish home and destroying a whole room, a bedroom, a kitchen, the living room.

These rocket boys in this video are each and every one, we can assume, a blood-thirsty, would-be murderer; indeed an antisemitic murderer for the main idea that drives them is the insult to their religion by free Jews via their rebellion against Allah. Jews are required to be oppressed and humiliated and they were somewhere in Islam every day for the last 1,400 years.

Unfortunately, Israel’s leaders have few thoughts about that. They know the Arabs are our mortal enemy; they are not delusional like the Left. But otherwise they say little against these Muslim Brothers in Gaza who fire off these rockets every day and will continue until stopped.

“Satanic” is not too strong a word, I think, to describe what you see on this video which looks like an ad for a weapons manufacturer. It is meant to boast of the glorious deeds of the rocket boys of HAMAS and that tells yours truly how truly barbaric these people are. They have no conscience that tells them it is not a good idea to fire rockets like this at random into the middle of Jewish villages and towns, trying to kill anybody.

We have also seen these past weeks the behavior we have seen for decades: how they hide behind children and place their artillery next to hospitals and orphanages, and they do this to smear the Jews with the guilt for the deaths that they themselves are responsible for.

There seems to be something like a short circuit in the brains of these people; and by these people I mean not only the HAMAS terrorists themselves but the people who support them. HAMAS just loves shooting video of wounded Arab children. You’ve seen this on the news: a man carrying child, running through the streets to a hospital, and HAMAS uses such videos to prove it is the Jews who are deliberately killing children.

As per the title of the last webcast, this is the age-old Blood Libel in modern dress. We are faced in HAMAS with men who have the souls of illiterate tribesman little different from their forebears in the 7<sup>th</sup> century when Islam arose.

HAMAS is a death cult which should not surprise because it is just the local Muslim Brotherhood franchise which cult originated in Egypt of the pyramids, those greatest tombs in the world. The closest thing to a bible for an ancient Egyptian was the Book of Dead, and the pharaohs who built these pyramids every day of their reigns were building their own tombs.

What distinguishes HAMAS in its war against us from us is HAMAS's proud slogan, "You love life, and we love death and that is why we are going to win," they say.

Israel's public diplomacy in this matter is almost non-existent. Israelis talk of defeating "terror" when that makes no sense. Terror is a spontaneous emotion, a great and sudden fear.

That is not the enemy. Emotions are not the enemy. The enemy is the Arabs and the Islam they have invented to justify their still ravenous, antediluvian appetite for the wealth of others.

Make no mistake: These HAMAS leaders are maniacs but in this life they are hardly ascetic. In a recent YNETnews story, what was surveyed was Hamas leader Ismail Khaniyeh who four years ago spent \$4,000,000 on just a parcel of land in the most expensive neighborhood in the Strip; Rimal it is called. He also has been reported to own several other properties used by his 13 children, and then the question asks itself: Where does a man like this get all this money? He produces nothing for sale. Obviously as head of the government in Gaza, he gets his money from all the taxes HAMAS levies on everything that comes into the Strip from outside.

And he is not alone in the HAMAS leadership as an owner of pricey real estate and a luxury home. Being the head of HAMAS makes you a multi-millionaire, and that is because it is an Arab institution that top politicians in government – very Third World -- get to become very rich, as the man in the street or rather in the Gaza context the man in the alley continues to live a slum.

\* \* (Musical Interlude) \* \*

Yeah, HAMAS is this evil organization of lunatic antiJew gangsters who have become millionaires as they skim off the foreign aid money that reaches the Strip, which they do not use to improve the living conditions of the inhabitants of the UNRWA slums but to build this mind-boggling underground world of tunnels and arsenals of hidden rockets. You saw that in the video, right, how they dig pits in orchards with sliding covers. They install rocket launchers in the pit which they then slide the cover over and cover with dirt until the moment they want to fire them to terrorize Jews in Sderot and elsewhere.

Gaza is notorious also for its terrible water supply and sewage disposal system which is completely inadequate which could have been repaired with all the money HAMAS -- the government -- spent on these tunnels, the miles of them lined with concrete and steel.

You may remember in years past Israel's refusal to allow such building materials into the Strip for fear they would be used against us, but the Enlightened said all the Ancient Ones wanted was to build new schools and medical clinics. Oh, how they love their children and care for the health of their people.

Right.

Israel's public diplomacy never exposes the utter corruption of these HAMAS big wigs, their hypocrisy and sick, medieval, even magical Jew-hatred.

We are, though, that is, the IDF, learning more and more of their satanic imaginations as we learn that the hundreds of houses in Gaza have been booby-trapped by HAMAS. They dig these tunnels starting in the basement of a family home -- whether the family likes it or not -- and then secrete in the walls explosives which can be detonated by remote control in the event Israeli soldiers discover the tunnel in the house. The soldiers enter the house and HAMAS blows it up. That is what happened last Wednesday in the north of the Strip.

It has been their plan to force Israel to enter their alleyways and slum dwellings and ambush us in all kinds of inventive ways.

They have become like rabid gophers, crazed gophers who pop up out of an unseen hole in the ground to attack. They fire off their missiles from within their residential areas and force us to enter these areas to be ambushed.

Like the battle in Jenin in 2002, if you remember. In order to take down some 20 terrorists hiding there, we sacrificed about the same number of our brave soldiers when we should have shelled the area to take down these terrorists with little regard for the non-combatants among them. But Israel would not do that.

There is something so evil in these HAMAS boys, this organization that is a local cousin of Al-Qaida, all of them products of the Muslim Brotherhood which arose to make war on Western civilization, the civilization that brought down the Ottoman caliphate in WWI. Muslims like these then were humiliated and terrified by this loss; terrified of the threat to their way of life.

HAMAS must be completely defeated in Gaza. The cost will be high but I think it must be paid. They are a cult whose brains are on fire with Jew-hatred. Their every workday is dedicated to Jew-killing. Think of the expense and man-hours they put into building these miles and miles of underground tunnels. Every minute of the HAMAS day is devoted to Jew-hatred and Jew-killing.

HAMAS cares nothing for the welfare of the people in Gaza; they spend all their money on this tunnel project and nothing on sanitation; nothing on schools.

And as we saw in that video, these rocket-launcher boys in their camouflage suits and boots and keffiyas train to do one thing: fire rockets into Jewish communities; into our homes, parks, shopping centers, factories and synagogues. Their rocket fusillades are not meant to target enemy soldiers but Jews of all ages and both sexes, to kill them and terrify them.

There can be no truce, no agreement, no mutually agreeable arrangement with these people. Israel has no alternative but total victory, and it is an easy victory to measure: the destruction of all their missiles and the machines used to make them.

It would also not hurt for Israel to begin a public campaign to dislodge UNRWA from the Strip, the accomplice of these maniacs and even decommission the Strip altogether. This rectangle exists as a remnant of Egypt's aggression in 1948, its invasion to destroy Israel on the day it declared independence and steal all the wealth the Zionists had created.

Israel must re-brand HAMAS as another al-Qaida that must be crushed. And if there is collateral damage as there was during the Allied defeat of Germany, so be it.

\* \* (Musical Interlude) \* \*

I imagine you all saw the quote of the week last week by Her Majesty Queen of Enlightened Ethics at the UN, High Commissioner of Human Self-Righteousness Navi Pillay who told an emergency meeting of her UNHRC in Geneva that Israel was falling short of its duty to protect civilians in Gaza from Israeli rockets.

She said these may be war crimes including Israel's refusal to share its Iron Dome system with the governing authority in Gaza, namely, HAMAS. She also condemned the U.S. for funding the Iron Dome while doing nothing in this regard for the Ancient Ones.

Is this woman a moron or what? I am waiting for our prime minister, or president, to talk back to this idiot and dismiss her as wholly incompetent in the matter of judging what is proper and improper in battle.

I think Israel should make a laughing stock of this woman and lump her with similar critics who are obviously incapable of seeing us Jews as fellow human beings. Her expectation here that we share this defense system with our aggressors is the fruit of a brain that is not working, or a mind incapable of seeing Jews as just more human beings. When in the history of nations has a nation ever shared its military technology with its mortal enemies against whom the technology was invented?

Is this woman thinking? Is her brain running at all? Is she using a kind of operating system I am unaware of?

She should be ridiculed and embarrassed for her stupidity and lumped with other antiJews whose brains blow a fuse when thinking of Jews.

It is a funny thing the way antiJew thinking like this is so off the rails. Think of Erdogan last week who has joined the howling pack of jackals wailing that Israel is deliberately killing children.

Clearly, those responsible for the death and injury to children in Gaza are HAMAS. Any civilized person whose mind is not infected with antiJewitis can see that. You cannot hide behind children and then blame the other guy if the child is hit.

In a way, this is Molech, god of the Ammonites. Children sacrificed for religious reasons; killing children as a religious act.

This is who HAMAS is and perhaps the most important reason why Israel must trounce HAMAS. Their leaders are crooks and cheats who do little for the common welfare. They market a Hitlerian hatred of Jews. It is their bread and butter, like Louis Farrakhan, like Rev. Jeremiah Wright and his devotees, if you know who I mean.

Like Hitler himself. What did he have to say about anything that was worth anything? His one marketable notion was his satanic, demonic hatred of Jews and the same can be said for HAMAS.

Israel could do worse than publically declare HAMAS this generation's version of Nazism and Israel will spare no expense to destroy it in Gaza.

We really have no choice. No accommodation with HAMAS is possible. Total victory is our only hope.

\* \* (Musical Interlude) \* \*

Okay. Tuesday, no webcast of course. The 9<sup>th</sup> of Av, the saddest day in the Jewish year. May it deliver wisdom to our leaders and help them make the right choice.

*Leila tov vetsom kal have an easy fast, miEretz Yisrael.*
