*Shalom laYehudim, Shalom laBnai Noach, Shalom laGoyim.* It is the evening of the 4th day, *tes-vav bekhodesh Mar Kheshran, Parashas Vayeira, taf-shin-peh*, 5780, the evening of the 3rd day, Tuesday, 12 November, 2019, webcasting from the target of humankind at its worst.

Humanity is at its worst in its fits of antiJew violence as we saw today. By evening, 150 missiles had been fired not at an enemy army by enemy soldiers in an army but missiles fired by Muslim assassins who make no distinctions between an enemy's soldiers and the enemy's non-combatants. War for them is not combat between national armies in uniform. War is killing any of the enemy people; non-combatant old men, old women, infants, little girls, boys, mothers, fathers. It does not matter. We Jews are in their eyes, brains and black hearts agents of the *shaitan*, the Satan. It is an act of piety to murder Jews in Israel for having humiliated Muslims in 1948 and finally after fourteen centuries free themselves from Muslim oppression; Jew who live free again as Jews in their ancient, Promised Land as they had not since before not only Islam but the birth of Christianity.

And so yesterday Israel returned to the tactic of assassinating individual Muslim leaders. For sure, the MSM will report on today's Arab barrage of missiles as being fired by Balestinians, not Muslims, which is the truth. They destroyed a Jewish factory in Sderot, hit a Jewish home, terrorized hundreds of thousands of Jews; prevented hundreds of thousands of Jewish children from going to school, which may be the most significant "accomplishment" of these Muslims. They know at some level of understanding that the Jews are smarter than they are, and keeping them from teaching their children contributes to the *jihad*, the struggle to return the Jews to their historic

status under Muslim dictatorship. One of the achievements of today's antiJews is having the world conceive of the relationship in this violence as between Israelis and Balestinians, and never the 14 centuries of Jewish life under Muslim rule, which was always and everywhere oppressive, in varying degrees depending on the local people and rulers.

The MSM will write today of the Balestinians when the Arab leader Israel assassinated yesterday was the head of a cult of deeply religious people not motivated by nationalistic and patriotic feelings. No, his organization is called Islamic Jihad, which is self-explanatory, I assume. You don't have to ask the boys in this rocket launcher club what they are all about, what they believe, what motivates them. Their name says it all, though in the modern State of Israel, the creation of Herzl a post-religious Jew, because it is post-religious the State, that is, their leaders, cannot think clearly about the enemy in Gaza that has been firing rockets into our homes and streets for two decades now, and no one puzzles over the oddity of this alleged superpower of the Middle East incapable of putting an end to this homicidal aggression inflicted on us by the Arabs in the Gaza Strip.

Instead, Israel uses its brainpower to invent the Iron Dome system that over the last day brought down 60 missiles, costing 6 million dollars, and its brainpower to invent the equipment that used to kill this latest head honcho, head of Islamic Jihad and apparently a second leader in Damascus virtually simultaneously. The technology Israel invents is amazing. I think, but I am sure, because of conflicting news reports that this latest antediluvian Muslim savage Mr. Baha Abu al-Ata was blasted to death in his bedroom in an apartment in a tall apartment house. And if so, it sounds like the same technique used to destroy the Arab dog responsible for murdering my friend Rechavam Ze'evi *by"ד* back in 2001. That villain was located alone in his apartment outside of Ramallah on a second or third floor, as an Israeli helicopter waited for him to come home, watching from like a kilometer away and then launched a missile that flew right into the window, exploded, killed him, but was so calibrated as to do no major damage to the room or the building.

In fact, this is how I want the US to fight Iran after 40 years of war-like aggression against the US by Iran. Imagine teams of commandos dropping into barren areas in Iran equipped with GPS equipped, bomb-bearing drones to be launched into Teheran, like a hundred of them, flying through the night into the bedrooms of the 100 most important men in that lunatic regime of mad Muslim clerics who smiled on 9-11.

So today much of tiny Israel, Tel-Aviv and south, was ordered by the Home Command not to go to work, not to go school. One report during the day was that the barbarians were first going to have a big funeral for their dead leader and then retaliate by firing at Tel-Aviv. But by late afternoon, so far, nothing, as the IDF has ordered a handful tanks to destroy in Gaza things belonging to Islamic Jihad.

During the day I presume an Apache helicopter espied three missile launcher boys on motorcycles and splattered them.

How ironic that we the Chosen People traditionally greeted one another with the word Peace/Shalom are endlessly attacked by devotees of the most barbaric of religions who represent the antithesis of peace. These Arabs are such violent people. All my life they are somewhere killing one another. As I speak, in Libya, Yemen, Iraq, Syria, it never ends with these people and no less significant is the sick fact that as much as they try to kill us and sometimes do, they are constantly killing one another. In researching my book about the invention of the "Palestinians" and the role model of Algeria in revolt in the 1950s and 60s, the most amazing fact I discovered about that Third World colonial rebellion, which was romanticized by the Left in France and elsewhere in that period, was that for every European murdered in terror atrocities in Algeria, the Muslims fought a civil war at the same time and killed eight fellow Muslims.

That was in the 1950s. Then again in Algeria in the 1990s the now decrepit victor FLN was challenged by ISIS-type Muslims, and again the death toll was like 200,000 people murdered in atrocious terror attacks.

And so, it is our fate to be the round-the-clock target of never sleeping murderous hatred in the minds and hearts of these savage Muslim Arab neighbors of ours, the seed of that wild ass of a man Ishmael.

And "savages" is the right word. I have returned to working on the Barbary Pirates and have discovered that not only Thomas Jefferson the third president of the United States and John Adams the second president used that word "savages" to describe Muslims. Jefferson, after all, in the years before, used that word in the Declaration of Independence to describe the Indians who sided with the British during the Revolution, calling them "merciless Indian savages." And so did John Jay in the 1780s, the secretary for foreign affairs in the still extant, pre-Constitution Continental Congress. He called the Muslims savages too, the future first Chief Justice of the United States Supreme Court. And it is another hallmark, I think, of the rot in Western civilization that no more is that acceptable language.

I remember in 1980 when the late, great President Ronald Reagan was campaigning for the presidency during the hostage crisis with Iran calling the Iranian kidnappers "barbarians," which was spot on. But now it is politically incorrect in the extreme.

The word "barbarian" comes from the Greek *barbaros* referring to the people on the other side of the Mediterranean. Some say that *barbaros* was virtually a sarcastic insult, an attempt to make fun of the language that sounded to them as *varvarvar*. In any case, the coast of North Africa earned the nickname the Barbary Shore. For the Greeks, anyone who did not speak Greek was a barbarian, but over time the word came to connote the uncivilized savages of that coast.

And that is exactly who these Muslim Arabs are. I mean, what kind of a people pulls off a 9-11, the mass murder of individual people guilty of nothing? In this week's parasha, we will witness Avraham arguing with the Almighty over the justice of the innocent dying with the guilty.

And we should not forget that 9-11 followed decades of the Balestinians hijacking airliners, planting bombs aboard them that blew them out of the sky. Who else but these Muslims act like this? Their Holy City Mecca is the site of routine head-chopping and hand-chopping. Islam has produced thousands of satanic terrorist massacres over the last half-century.

And it I continue to see Jewish pathology in Israel's palsied imagination incapable of thinking of a way to pacify the Gaza Strip once and for all. The MSM experts here today were reporting the call up of reserves, and the expectation of days of terror missiles. And yours truly has lost track of how many times since 2005 the IDF has had to mount a major operation and respond like this. And I say, "Enough already."

And this paralysis is likely rooted in the reluctance of contemporary post-religious Israelis to claim the right to drive the enemy out of Gaza because the Strip is land rightfully the possession of the Jewish people. Modern post-Jewish Israelis are afraid of being called racist fascist thieves of Balestine for making any move to evict the enemy population from our land.

\*            \* (Musical Interlude) \*

Yes, as Israel suffers a kind of paralysis of the mind about Gaza, so it remains mute in the face of World Anti-Jewry's endless verbal aggression fostering the verbal hologram of a Balestinian beople with rights that we Jews deny to them; that we Jews are in possession of what rightly belongs to them. Nearly 2,000 years ago, the Midrash recorded the story of the Ishmaelites being offered the Torah which they rejected because it says "Don't steal," and the historical record is plain the Arabs through history were thieves, armed robbers, nomads and therefore uncivilized people because civilization begins with sedentary life and the cultivation of land.

Does a day go by without news of some antiJew spewing poisonous words about us? A current example: the Knesset just approved a cable car for Jerusalem to serve the many visitors to our Temple Mount occupied by savage Muslim barbarians, which news report angered the Ancient Ones because the line will pass over some of their houses. Spokeswoman for the outlaw PLO syndicate of Jew-killers Dr. Hanan Ashrawi, talking like a real Arab -- which I'll explain in a minute -- protested, "The cable car project is an obscene violation of the cultural, historical, spiritual, geographic and demographic character of Jerusalem."

With no Israeli, no Jewish spokesman taking her on by saying, the historical record of Jerusalem's cultural, spiritual, geographic and demographic character shows no presence whatsoever of Balestinians living in Jerusalem, let alone contributing to its cultural, spiritual, geographic and demographic character. This woman lives in a world of *A Thousand and One Nights*, a world of fairy tales, only in her version all the villains are Jews.

I said before that she spoke like a true Arab in this style of listing a series of crimes, the hallmark of a primitive intellect that thinks that adding accusations like these strengthens one's argument. Time and again I have heard Arabs accuse of Israel of being a "racist, fascist, colonialist, imperialist thief of Balestine from the Balestinians." I have heard PLO murderers claim they were going to destroy Israel "militarily, economically, politically, culturally, geographically" and so on and so forth. Thus, spake Hanan Ashrawi who I imagine has Mr. Thomas Jefferson looking down from Heaven in serious dismay. In the epitaph on his headstone, three things were listed that he was most proud of in his life. 1. Writing the Declaration of Independence, 2. Writing the Virginia Bill for Religious Freedom, which is why he was so hostile to Islam; freedom of religion was central to his being, and 3) founding the University of Virginia where Hanan Ashrawi got her PhD. A mind like hers that believes there was a Balestinian people that played a role in the history of Jerusalem's cultural, geographic and spiritual character does not belong in a Western university. Leastwise in none of the so-called humanities. For sure, there are Muslim Arabs out there who have enough brain matter between their ears to be scientists, mathematicians, but otherwise, hers is a most primitive mind at work that Israel is remiss in not shining a light on. A healthier Jewish society here would not tolerate this constant spewing of antisemitic thinking which is the essence of Palestinian Nationalism, the verbal hologram claiming historic ownership of Eretz Yisrael, and that Nazi-like Jews stole it from them. The sky would not fall if the prime minister of Israel announced a major speech by himself at such and such a time as he did when he declared some weeks ago that if returned to office, he would annex the Jordan River Valley. And in this speech announce that Israel no longer will go along with the fantasy of there being a "Palestinian people "with the right to a state in our ancient, biblical promised land. He might say Israel is prepared to continue to treat humanely the Arab Muslims in Judea and Samaria but the idea of a Balestinian state, that was the the Oslo abomination, the brainchild of Israeli Leftists hostile to thousands of years of Jewishness during which Jerusalem was in our prayers and on our lips with the memory of the nation being at home here. The first Temple stood for some 403 years, the second temple for 415 years. The Temple has been in Jewish prayers many times daily since the year 69 CE, with no record since then of any Balestinians ever living here let alone calling Jerusalem their capital and contributing to the "cultural, geographic and spiritual character" of the city.

The entirety of the hostility to Israel today is the poisonous fruit of the Tree of Fake Knowledge that the Jews stole Balestine from the Balestinians, to which official Israel never ever says in response that there were no Balestinians here and we didn't steal anything.

It is a fact: there is no record of Palestinians building anything in Jerusalem. Until the Zionist movement, no Balesinians ever build a school, a hospital. Early in the 20<sup>th</sup> century, Christians from overseas built two hospitals. Then came Henrietta Szold creating Hadassa. Then after 1967 the Israeli authorities permitted the building of the first hospital in the Arab section in Jerusalem.

In the 1920s and 30s, the first years of Mandatory Palestine, a jurisdiction no Arabs ever knew existed, there was only one high school in Judea and Samaria in Ramallah built by American Quakers. What did any Palestinian group or organizations ever build in Jerusalem o for Hanan Ashrawi to fantasize this perfectly hallucinatory “Palestinian” past in our holy city that the cable car will insult, or something like that?

What Israel needs to do is stop trying to get alone with these Arabs and start speaking the truth to them and the world. And it can start by organizing protest demonstrations at the European Court of Justice where World AntiJewry yesterday singled out Jews from all the nations of the world by ruling that the produce of Jews in Judea and Samaria be marked as the handiwork of illegal settlers.

These Europeans have yet to understand that this behavior is classical Jew-hatred in modern dress.

\*                      \* (Musical Interlude) \*                      \*

Yes, the European Court of Justice today ruled that Israeli products produced in Judea and Samaria, in east Jerusalem and the Golan Heights, must be labeled not as products of Israel but products of Israeli “settlements in occupied territory.”

The ruling also described the settlements, the communities of Jews built on barren land bothering no one as giving “concrete expression to a policy of population transfer conducted by the State outside of its territory, in violation of the rules of general international humanitarian law.”

This is a wonderful, solid piece of malignant thinking, that is so because of its dishonesty that is typical of antiJew delusions. First of all, the expression “population transfer” refers to the 4<sup>th</sup> Geneva Covenant, Article 49, produced in 1949, condemning “population transfer” which had at the time referenced the Jewish populations all over conquered Europe being forcibly transferred by the Nazis against their will to Polish extermination camps. Here that language is plagiarized to dishonestly describe the rise of the post-’67 Jewish communities as a “population transfer” when not one settler, not one, was transferred. He and she came of their own free will to live in the heart of the heart of the Jewish homeland.

The second lie in this Euro Court of Fake Justice the communities are described as outside of Israel’s territory when the truth is that Israel’s territory has never been defined in Judea and Samaria. It is a lie to declare Judea and Samaria outside of Israel’s territory which remains undefined. Worse, it contradicts the League of Nations’ 1922 map of

Balestine showing all the land west of the Jordan as the future, historic homeland of the Jewish people.

And 3) as for Israel being in “violation of the rules of general international humanitarian law,” which formulation I offer in evidence of this ruling’s dishonesty. What “rules of general international humanitarian law” does the Court have in mind? Where can one find these rules and discover which one of them fingers Israel’s presence in the historic homeland of the Jewish people a violation of international humanitarian law? The absence of specificity is a significant indicator that there is no such law that denies the right of Jews to live in Judea and Samaria because their presence on heretofore barren hilltops are a violation of written international humanitarian law.” Really? Where?

To quote Star Trek’s Mr. Spock, I find this “Fascinating.” This ruling and this language are this generation’s post-Holocaust way of accusing Jews of evil, of the crime of living on Ancient Palestinian land that the criminal Jews stole from its age-old national owners.

In centuries past, Jews were accused of all kinds of skullduggery: cheating in business, “Jeweing someone down” in a business deal; killing the Creator of the Universe, murdering non-Jews to suck out their blood, poisoning a water supply, poisoning Muhammad. Today, their presence in Judea and Samaria is an offense in the judgment of the European community against humanitarian law, meaning treating, the Ancient Ones is less than a human way, treating them in ways that are inhuman and worthy of evil people.

International law expert Eugene Kontorovich described the Euro Court ruling as labelling Jewish products from Judea and Samaria with a yellow star.

More evidence of the failure of the secular Zionist ambition to create a state whose very existence will put an end antisemitism out of business.

Religious Jews, by contrast, I think, would agree that antiJewitis will be around until Moshiach comes but who won’t come until the Jews stop trying to end antisemitism by dejudaizing themselves but finally embrace their destiny as a kingdom for priests serving the Holy One Blessed Be He.

Last word, an explanation of why I did not do a webcast two evenings ago and asked webmistress Suzanne to post I was “fed up.”

In truth, it was a day incredibly empty of anything truly new but also because I was just sick of following the mind-boggling stories in US in the anti-Trump hysteria which is also nastily anti-American but also the corruption here in the persecution of Benyamin ben Bentzion in pretty much the same spirit. The legal powers in both countries are acting in the most disgusting way and I feared I would have nothing to say but express a depressing bitterness that I did not want to inflict on you, so I just took the night off.
